Dear Dr. North:

Thank you for your preliminary application. Because we receive so many applications, we must strictly adhere to our guidelines for submission. This makes the task of our reviewers less burdensome. Unfortunately, your submission is not in a format that we accept. Please refer to the enclosed letter of instructions. Of particular importance are the absolute requirements for:

- ☐ Three page research proposal
- ☐ Proposed duration of the project (one, two or three years)
- ☐ One figure estimate of the first year's annual direct costs; Please keep in mind that typical budget requests range from $40,000 to $80 or 90,000 at most.
- ☐ Two page *curricula vitae,* for P.I. and professional level collaborators
- ☐ Two or three publications, abstracts or manuscripts (if applicable)

Please note that the page requirements are absolute and no additional pages can be accepted. It is up to the applicant to determine what materials are most important for inclusion in the application. Your application will be considered in the cycle when we receive the completed submission.

I personally understand your mission and wish you the best.

Sincerely,

ADE/ade
